

# Provide Your Input

## on the Long-Range Rural Transportation Plan

Scan to Add  
Your Comment

The Utah Department of Transportation (UDOT) is updating the Long-Range Rural Transportation Plan to prioritize anticipated transportation system needs in rural areas of Utah for the next 25-30 years. The planning process is now underway through mid-2023.

The public is encouraged to provide input at anytime throughout the planning process. The plan goals, needs and strategies are now available for comment.

### *The public is encouraged to provide feedback in the following ways:*

Fill out the survey and  
comment on the map found on
